

Scott Shultz – Speaker Kit

Senior Technology Executive | CIO / CTO | Board Advisor | AIOps & Observability Strategist

Email: contact@scottshultz.com | Web: www.scottshultz.com

About Scott

Scott Shultz is a senior technology executive, board advisor, and innovation strategist with over 30 years of experience leading global organizations through complex digital transformation and IT modernization efforts. Known for his ability to blend strategic vision with hands-on leadership, Scott has successfully driven cloud migration, AI-enabled observability, and enterprise governance across industries like financial services, hospitality, and commercial software.

Featured Speaking Topics

Smarter Ops: How AI Is Rewriting the Rules of IT

From alert fatigue to self-healing systems—how to leverage AIOps for speed, resilience, and sanity.

From Firefights to Forecasts: Leading IT in the Age of Observability

Turn metrics into intelligence and noise into action. A modern ITOM survival guide for CIOs.

Engineering for Value: Smart IT Cost Optimization Without Compromise

Practical ways to streamline spend, optimize cloud ops, and align IT with business value.

AI + Ops + Humans: The Leadership Blueprint for Autonomous IT

Why tomorrow's high-performing IT orgs won't be fully human—or fully automated.
